

DearMemory

Sit together. Remember together.

A free, private online Memory Room for families, friends and carers.

No subscriptions, fees or payment details required

What DearMemory brings together

A calm place to collect meaningful photographs, stories, music, familiar voices and the people connected to a life.

● Memory Room

Keep photographs, stories, voice recordings and meaningful details together.

● Visual Memory Map

See how familiar people and shared moments connect across a life story.

● Prepared Journeys

Enjoy a short guided selection: a familiar person, comforting favourites or across the years.

● Family Access

Give trusted people their own View only, Memory contributor or Family manager account.

● Read Aloud

Hear names and descriptions using a voice available in the visitor's browser or device.

● Private Downloads

Download one memory or a complete private copy to keep somewhere secure.

Designed around dignity and trust

- Private signed-in family space - not a public social profile.
- Separate permission levels and regular access review.
- Consent, privacy and emotional comfort should guide every memory.
- Still layouts, readable text, clear choices and keyboard focus.
- Not a medical record, care plan, emergency service or clinical tool.

For organisations

Dementia groups, charities and community services can signpost families, share this sheet, give feedback or request a demonstration.

**Families control their own accounts.
Never ask for a family's password.**
