Designed for families and friends.
DearMemory is not a medical service and does not replace
professional dementia, health or social care support.

Every family has stories worth remembering

DearMemory is a simple, private
place for families and friends
to preserve memories,
photographs and the stories
that matter.

Free to get started

Create your Memory Room and
begin preserving memories for free.

A memory can start with just a few words.

Record a childhood story, a favourite holiday, a first job, a wedding day, a much-loved place - or simply something that made you smile. Add more whenever you're ready.

Here's an example memory

A Day at Rhyl Sun Centre

Approx. 1960s • Holiday

We always looked forward to our day out in Rhyl. The Sun Centre had rides, arcades and ice cream. I loved the dodgems! Mum would let us choose a prize from the gift shop on the way out.

Your memories. Your way.

Save them privately for your family and friends today, and for generations to come.

With DearMemory you can:

Capture memories

Write your stories in your own words, just as you remember them.

Add photographs

Add photos, documents and keepsakes that bring your story to life.

Use approximate dates, decades and life chapters

You don't need exact dates. Choose what feels right.

Remember important people

Add family, friends and others who were part of your story.

Keep private notes

Add personal notes that only you can see, if you choose.

Use voice input

Use voice input where your device supports it to record your story.

DearMemory is designed to be simple to use, so families can gradually build a personal collection of stories without needing to do everything at once.

Start with one memory

Add more whenever you're ready.
